AJITH PRAKASH

Software Engineer AI and ML - Object detection | Machine Learning | Deep Learning | Computer Vision
Bengaluru, Karnataka, India

Summary

With a robust background in AI, machine learning, and data analysis, I specialize in designing and implementing innovative solutions. I excel in project planning, data acquisition, and model optimization. My work includes developing models for document categorization, improving object detection and tracking for autonomous vehicles, and enhancing model performance through quantization.

Previously, I was a Data Analyst where I explored large datasets, conducted statistical analysis, and integrated ML into domain-specific applications. My expertise spans regression, classification, ensemble models, and feature engineering, utilizing tools like Python, Tensorflow, Keras, and Power BI. Let's connect to explore more opportunities.

Experience

brigosha
Software Engineer AI and ML
March 2022 - Present (2 years 7 months)
Bengaluru, Karnataka, India

DuraTech Solutions - India
Data Analyst
February 2020 - March 2022 (2 years 2 months)
Coimbatore, Tamil Nadu, India

Information Evolution, Inc.
junior telephone analyst
April 2019 - August 2019 (5 months)
Coonoor, Tamil Nadu, India

Education

PSG College of Arts and Science

Bachelor's degree, Computer Science · (2015 - 2018)

Stanes.Al.Hr.Sec.School

Higher Secondary · (2003 - 2015)
